On behalf of Council, I extend congratulations to York Region Educational Services on receiving the Canada Volunteer Award in recognition of their Youth Volunteer Success Program.

Providing the necessary training to prepare individuals for their role in a volunteer capacity is training that will result in a positive experience and will contribute to their continued personal growth. Access to structure training will result in enhanced leadership qualities as they strive to create a welcoming environment for the countless lives they will touch through their future years of volunteer service.

Thank you for sharing this wonderful news and providing this opportunity to extend our congratulations.

Sincerely,

Mayor Virginia Hackson
